MONOPOLY ON CATTLE SHIPS

P. D. ARMOUR HAS A CORNER ON OCEAN TRADE.

OTHER DEALERS SHUT OUT

Chicago Man Buys Up All the Room for Transportation of Cattle on Trans-Atlantic Lines for a Year—Will Advance the Price of Beef in England—Talk of a New Line.

NEW YORK, Nov. 1.—Practically all of the outgoing room for the transportation of cattle on the regular trans-Atlantic lines has been cornered by a syndicate composed of English cattle buyers and P. D. Armour of Chicago. This means that independent cattle shippers in this city will be shut out of the English markets, and that the price of beef will thereby be advanced.

Contracts have been placed with the White Star line for one year for all of the company's cattle room. Other contracts have been made with the Atlantic Transport line of New York, Philadelphia and Baltimore for the same length of time, and with the National line for two years. The negotiations have been carried on by William Bower, formerly a large cattle shipper of this city, but who has of late been in England. Schwarzschild & Sulzberger and Shamburg & Sons, the two largest shippers in this city, who are out of the syndicate, are shut out from getting space on any of the vessels that ply between here and London or Liverpool. The only lines not contracted for are the Wilson line to Hull and the Allan line to Glasgow.

The prices at which the contracts were made provide for the carrying of cattle at forty shillings a head, not including at this rate any insurance or fodder. A representative of Schwarzschild & Sulzberger, in speaking of the effect that the corner on shipping space would have, said today:

"As conservative business men we did not feel warranted in making large contracts in advance at 40 shillings when competitors have been able to obtain rates as low as 35 shillings. The new arrangement may result in our doing our business via other ports, which will take the shipping of our cattle entirely out of New York."

The cornering of the cattle trade has led to negotiations for a new line of steamers to run between New York and London.

Triple Lynching Imminent.

ST. JOSEPH, Mo., Nov. 1.—A triple lynching is imminent at Mercer, Mo., as a result of the murder of Nathan Stark, a prominent farmer, by Ira Sexton, a neighbor and highwayman. Three others were in the crime. They are Sexton's wife of a week, her sister and a stranger from Indiana. Sexton is in jail at Princeton and the others under guard at Mercer. The force of guards was strengthened yesterday. Sexton said he did not want to kill Stark, but when the latter was held up he showed fight. The robbers got nothing.

The location selected is an ideal one in Matagorda county.

WILSON'S REPORT.

Work of the Agricultural Department for the Past Year.

WASHINGTON, Nov. 1.—Secretary Wilson presented his report to the president yesterday, reviewing the operations of the department of agriculture for the past year. The most important recommendation made by him was one that agents for the department should be stationed at each of the more important embassies for the collection of information of interest to American farmers.

The secretary recommends an increase in the appropriations in aid of a bureau of animal industry, of the weather bureau and publication offices. He thinks the department should be enabled to place the result of important operations at agricultural colleges before the entire country, so that the farmers of each state may get the result of the good work done in other states.

Mr. Wilson says the department will continue its pioneer work in the encouragement of the sugar beet and expresses the opinion that the country will within a few years raise all the sugar that it requires. He expresses the opinion that nearly all of the \$352,000,000 sent abroad last year for sugar, hides, fruits, wines, animals, rice, flax, hemp, cheese, wheat, barley, beans, eggs and silk might have been kept at home. He also thinks the United States should grow their own chicory, castor beans, lavender, isoorie, mustard, opium, etc.

With references to horses, the secretary says: "The American farmer can grow horses as cheaply as he can grow cattle; we have a heavy and profitable export trade in cattle and may have an export trade equally heavy and profitable in horses. The department is gathering facts regarding our horse industry at home, and the requirements of purchasers abroad, so that our farmers can learn what foreign buyers demand."

The secretary criticizes the present system of crop reporting. He strongly favors the making of some pecuniary acknowledgment of the service of a carefully selected corps of correspondents, selected mainly in the principal agricultural states and that reliance be placed upon the state statistical agents for information regarding the states of minor agricultural importance.

MILLIONS IN VALISES.

Bonds of the Fair Estate Taken Safely Across the Continent.

SAN FRANCISCO, Nov. 1.—In order to facilitate the settlement of the estate of the late James G. Fair, the executors recently obtained an order of court permitting the transfer of \$4,000,000 in bonds from New York to this city. Wells, Fargo & Co. demanded nearly \$5,000 expressage on the bonds.

The executors decided to save this amount, and the bonds were placed in three dress suit valises and in care of W. F. Marshall and Charles D. Neal were brought across the continent on the ordinary passenger trains. The precious baggage was carefully guarded, but its value was not known and no attempt at robbery was made.

Will Continue the Fight Upon Thieves and Corruptionists.

NEW YORK, Nov. 1.—Henry George, son and successor of the late Henry George, has issued the following statement:

"I am an affectionate son of a most loving father. Between us has subsisted the closest companionship. I have a clear understanding of and profound admiration for all that he has said and done. A man has but one life here to live. I solemnly dedicate mine to the cause to which my father gave his. If elected to the office of mayor of Greater New York I shall hold myself pledged to fulfill every condition and promise made by him, and most especially shall I bring swift justice upon those public thieves and corruptionists who for so long have haunted their deeds in the faces of the common people whom they have insulted and robbed."

"To all the world I proclaim this: My father's work, as he planned and pursued it, shall be carried forward, without faltering or swerving. Let all who took hope at the sight of his standard keep heart and follow, for it presses on, and shall press on and on while life is left."

Card From Vernon.

GUTHRIE, Nov. 1, 1897.

Editor Leader—I wish to explain through your columns why an affidavit was published in The Leader, also the Oklahoma Representative. I applied to J. F. Shultz for the jointship of the Banner school of this city, as I thought he, J. F. Shultz, lived in Banner school district; that would have influence and that I would be pretty sure to get the job. Therefore, we raised the matter over privately in order that there would be as little "complication" as possible for it—job and the last talk we had was on Saturday previous to the school meeting of the board that hired the jointship for all the schools in Guthrie and in our last talk J. F. Shultz told me, or made the statement, that we had been offered \$50,000 for the jointship of the Banner school. Now mistake not, he said we have been offered the sum above mentioned. Well, I didn't get the job and I supposed that Mr. Vanmeter, the man that got the jointship, paid more than the ten dollars that J. F. Shultz mentioned to me, as I told Shultz I would swell the bid to ten dollars but I told several parties about my talk with Shultz on the above subject and Shultz was told that I had told about the matter and he accused me about what I had told and said that I was mistaken about telling our talk; that he had told me that one of the school board had told him that they (one of the school board) had been offered five dollars for the above mentioned job. Now I am going to connect another link. I had a talk with the minister of the church of which J. F. Shultz is a member and he (the minister) made the remark that some but God would know how much was paid for the job above mentioned. Mr. Drake being present when the minister made the remark, I haven't given all the talk that took place between J. F. Shultz and myself, but I hope this will explain to some extent why the affidavit was published. Shultz, in his reply to
